Professional Summary

Flutter Developer with 3+ years of hands-on experience in designing, building, and deploying production-ready Android and iOS applications. Strong expertise in Flutter, Dart, GetX, Provider, Bloc (BLoC), REST APIs, Object-Oriented Programming (OOP), Clean Architecture, Firebase, and Google Play Store deployment. Proven ability to deliver scalable, high-performance, and user-centric mobile solutions across healthcare, fitness, and service-based domains. Experienced in Agile development environments and collaborating with cross-functional teams from development to release.

Technical Skills

Languages: Dart, Flutter, Swift (Basics), Objective-C, Java, C++ • **Frameworks:** Flutter, iOS SDK • **State Mgmt:** BLoC, Provider, GetX • **Architecture:** Clean Arch, MVC, MVVM, Repository, SOLID, OOP • **API/Networking:** REST APIs, Dio, HTTP, JSON, Error Handling • **Backend/Cloud:** Firebase (Auth, Firestore, RTDB, Functions, FCM, Analytics, Crashlytics) • **Storage:** SharedPreferences, Hive, SQLite, UserDefaults • **Auth:** JWT, OAuth 2.0, Firebase Auth, Google/Apple Sign-In • **iOS:** Xcode, CocoaPods, SPM, APNs, ATS, Lifecycle, TestFlight, App Store Connect, Signing • **Testing:** Unit, Widget, Integration, XCTest • **Version Control & CI/CD:** Git/GitHub/GitLab/Bitbucket • GitHub Actions, Fastlane, Codemagic • **Deployment:** Play Store, App Store, Release Mgmt • **Optimization:** Memory, App Size, Profiling, Flutter DevTools • **Tools:** Android Studio, VS Code, Xcode, Postman, Figma • **Others:** Agile, Scrum, Jira

Education

Parul University, B.Tech in Computer Science & Engineering	2019 – 2023
Jawahar Navodaya Vidyalaya, Higher Secondary Certificate (HSC)	2017 – 2019
Shiv Prakash Memorial School, Secondary School Certificate (SSC)	2005 – 2017

Professional Experience

Senior Flutter Developer

Aimbeat Technology – Mumbai, India

Mar 2024 – Present

- Led full-cycle development, architecture, and deployment of 8+ production Flutter apps (Android/iOS) serving 200K+ users
- Designed scalable Bloc + Provider architecture with Clean Architecture principles → achieved +40% code reusability and modularity
- Migrated legacy state management to Bloc → reduced bugs by 30% and significantly improved app responsiveness
- Built robust REST API integrations (Dio) with error handling, caching, pagination, and retry logic for real-time features
- Implemented CI/CD pipelines using GitHub Actions + Fastlane → accelerated releases by 50% with zero-downtime deployments
- Collaborated in Agile teams to deliver features ahead of schedule while maintaining high code quality
- Mentored junior developers, led code reviews, and enforced best practices → boosted team productivity and quality
- Integrated Firebase suite, Google Maps, Stripe, Razorpay, and other SDKs seamlessly
- Optimized performance through lazy loading, widget pruning, and memory management → achieved 25% faster app startup
- Managed store compliance, TestFlight betas, and smooth production releases

Flutter Developer (Intern)

SkyView Smart Solutions – India

Jan 2023 – Feb 2024

- Contributed to 2+ production apps in a short 2-month internship → successfully converted to full-time role
- Developed reusable Material and Cupertino UI components for consistent cross-platform user experience
- Integrated REST APIs along with secure authentication flows (Google Sign-In + Firebase Auth)

- Wrote unit and widget tests → contributed to 15% lower bug rate in features delivered
- Actively participated in Agile sprints, daily stand-ups, and code review sessions

Publications

Apna Mart: Grocery in 10 mins – Quick Delivery Grocery App ≈ 2025 – –2026

Mobile application for instant delivery of groceries, fruits, vegetables, dairy, household items in 10–15 minutes, featuring offers, top brands, and cash on delivery.

Published on Apple App Store: Apna Mart: Grocery in 10 mins

Published on Google Play Store: Apna Mart: Grocery in 10 mins

Developer: Log2 Retail Services Private Limited

Rating: 4.5 stars (1.2K ratings on App Store)

Spin — Electric Scooters – Shared Electric Scooter & Bike App ≈ 2024 – –2026

Mobile app for locating, unlocking, and riding shared electric scooters and bikes, with Ride Pass subscriptions, group rides, free ride incentives, and urban mobility features.

Published on Apple App Store: Spin — Electric Scooters

Published on Google Play Store: Spin — Electric Scooters

Developer: Pheenix USH LLC (Spin Inc.)

Rating: 4.7 stars (239K ratings on App Store)

PurpleX: Crypto Payment App – Cryptocurrency Payment & Wallet App ≈ 2025 – –2026

Mobile application enabling scan-and-pay crypto transactions, wallet management, merchant payments, instant transfers (BNB, ETH, BTC, etc.), and crypto-to-INR features.

Published on Apple App Store: PurpleX: Crypto Payment App

Published on Google Play Store: PurpleX: Crypto Payment App

Developer: PURPLEX FINTECH PRIVATE LIMITED

(Limited public ratings; focused on secure crypto payments)

OpenSea (Android) – NFT Marketplace Mobile Application Sep 2021

Developed with Flutter (cross-platform support for Android & iOS)

Published on Google Play Store: OpenSea: NFT Marketplace

Published on Apple App Store: OpenSea: NFT Marketplace

Mobile application for doctors and students at Princess Nourah bint Abdulrahman University (PNU) Dental / KAAUH

Published on Google Play Store (Android APK available): Dental PNU

(Custom/internal university app; limited public details on exact publication date)

Voltvala – Service-based Flutter Mobile Application (Amibeat Technology) ≈ 2024 – –2025

Service-oriented mobile app developed with Flutter

Custom solution by Amibeat Technology; no public Google Play or App Store listing identified (possibly private or region-specific)

CPT Gym Fitness & Workout App – Fitness and Subscription-based Application (Amibeat Technology) ≈ 2024 – –2025

Flutter-based fitness tracking and subscription management app

Custom solution by Amibeat Technology; no specific public store listing found (similar fitness apps exist, but not directly matching this name/developer)
